### NUTRITION CLUSTER TOOLKIT

- [Contact List](#)
- [3Ws Nutrition Cluster Template](#)

The Global Nutrition Cluster (GNC) exists to collectively strengthen technical and coordination capacities for nutrition in countries, based on the needs of affected populations. This is to enable countries to forecast nutrition trends and prepare for, respond to, and recover from shocks under the humanitarian emergencies context.

If you would like to be included in the State of Palestine Nutrition Cluster List, kindly fill out the form using this [link](#)
